— PRODUCTS —

Design. Engineer. Achieve

**Manufacturers & Exporters of
Brass Precision Turned Components**

We Produce The Best. Find The Best Solutions With Us

Hardik Metal Products is the foremost companies engaged in Manufacturer & Exporter of Brass Components and Sanitary Fittings providing best services to the very highly profiled organizations & OEMs in India as well abroad countries. Our expertise is in manufacturing Sanitary Parts, Fittings & Precision Turned Components.

- ☑ Experienced Team Members
- ☑ Modern & Innovative Infrastructure
- ☑ ISO Certified Company
- ☑ On-Time Delivery

All metal components are manufactured under supervision of highly qualified and technically experienced engineers on most modern machines as per our customer's drawings and specifications, as per national & international standards.

A team of experienced professionals is a strong base of our company. We have selected all these professionals on the basis of their experience and knowledge. Our team of experienced professionals holds vast experience of this domain and works in close relation with our clients to analyze their exact needs.

We Are Providing Quality Metal Components & Fittings

Superior Quality Products

We have state of art manufacturing facilities with best machineries and quality control panel to deliver highest quality products.

Skilled & Dedicated Team

We are a team of highly skilled & experienced professionals, who endeavor their best to achieve the goals of our company successfully

Very Competitive Price

The best part is we deliver high quality work at very highly competitive prices. We believe that price is a key to sales success.

On-Time Delivery

Our continous observation of our customer's demand and supply gap enable us to offer the right products on the right time.

Industries We Serve

Automobile

Electrical

Oil & Gas

Plumbing

A Quality Name You Can Trust! Quality Manufacturing Is Our Aim

Hardik Metal Products insists upon unmatched quality and excellent customer services at most competitive prices. Our Plant has been installed with latest and ultra modern automatic Manufacturing equipments to produce Precision Components strictly as per International Standards.

Our Commitment to quality is evident from the facts that we manufacture the products in accordance with the relevant international standard and have the necessary product approvals. Our Quality Control team continuously monitors the products and users requirement right from the productions stage up to the final dispatch.

Our extensive experience allows us to offer technical support services, from Design advice to Testing and Commissioning of the Product. Due to strict quality control procedures our customers are kept ensured that their requirements are met accurately and consistently.

Customer Satisfaction Is Our Aim

Hardik Metal Products insists upon unmatched quality and excellent customer services at most competitive prices. Our Plant has been installed with latest and ultra modern automatic Manufacturing equipments to produce Precision Components strictly as per International Standards.

Quality Control

For ensuring defect free products, we test our products with rigorous controls along with supplementary test like process control, assembly line control, quality control, material control, dimensional control, leakage and pressure control.

Quality Inspection

Company has unique Inspection facility to achieve the goal to zero defects and rejection of any products manufactured. Well experienced and regularly trained technocrat engineers, carry out the inspection on each individual produc.

Packing & Dispatch

After inspection, each order is directed to a packing location. The completeness of whole order can be checked here optionally. Than the packing list gets printed and the whole order is packed and dispatched.

BRASS FITTINGS

Brass is widely used in manufacturing brass fittings, plumbing fittings, flare fittings, garden hose fittings, compression fittings, transmission fittings, pipe fittings & threaded fastening, due to its excellent qualities as rust-resistance, hardness, wear-resistance, high tensile strength, durability and flexibility.

BRASS SANITARY FITTINGS

The Brass Sanitary Parts manufactured by us are made from quality brass materials which ensure durability and quality. Our wide gamut of Brass Sanitary Spare Parts include Brass Tee, Brass Elbow, Brass Union, Brass Socket, Brass Coupling, Brass Bush, Brass Plug, Brass Stop Plug, Brass Adapters, Brass Couplers, Male/Female Pipe Fittings, Hexagonal Reducing Nipple, Stop Plug, Bush, Male/Female Adaptors, Female Connectors and Hose Joiner.

BRASS MOULDING INSERTS

The wide range of Brass Inserts include threaded moulding inserts, ultrasonic moulding inserts, knurled moulding inserts, moulding inserts for plastic, wood moulding inserts and more. The range of standard and high quality brass moulding inserts are designed to be molded into the plastic, wood or any molded components. The brass used in the manufacturing of these Inserts is of optimum quality that ensures high durability, tensile strength and resistance to corrosion.

BRASS COMPRESSION FITTINGS

Brass compression fittings are a type of plumbing fitting that is used to join two pipes or tubes together. They consist of three main components: a compression nut, a compression ring, and a body that houses the pipe or tube being connected. The compression nut is typically hexagonal in shape and is used to tighten the compression ring against the pipe or tube connected. A compression ring also known as a ferrule is a small, tapered ring that fits around the pipe or tube and creates a seal when compressed. Body of the fitting is typically cylindrical and is designed to house the pipe or tube being connected.

BRASS AUTO PARTS

We are specialized in manufacturing and customizing any kind of automobile parts as per customer requirements and CAD drawings. We are using excellent quality raw materials and advanced technology to ensure the high durability and anti-corrosive property of automobile parts. All our automobile parts are compliance with the international standards and industry norms. Our offered range of automobile parts are widely appreciated by customer in domestic as well as international market for its accurate dimension, precious design, high performance and flawless finish. Automobile Parts are widely used in all kind of vehicles and automobiles as replacement and repairing parts. Our automobile parts are preciously tested and inspected before its final delivery to ensure defect free and high-performance product. We are capable to manufacture standard as well as custom automobile parts in-terms of dimension, size, material, shape as per customer specification & requirements.

BRASS FORGED PARTS

We are specialized in Manufacturing of Brass Forged Parts. We can Manufacture any type of Brass Forging Components, Brass Forging Parts, Brass Forging Fittings, Brass Forged and Machined Parts, Brass and Gunmetal Die Casting Components for various industries including Water Valve and Pipe Fittings, Plumbing and Sanitary Fittings, Agricultural Equipment, Automotive Parts, LPG and CNG Valve Fittings, Electrical and Engineering Assembly. We have a Unique Manufacturing Facility to develop Brass Forged Parts as per customer's designs and requirements.

BRASS PRECISION PARTS

We are leading manufacturer of Brass Precision Components providing customized products to achieve the desired specialization in the production of parts. These components are widely used in Engineering, Aerospace, Medical, Agricultural, and Machine Tool Industries. We are well known in the market for our various excellent products. We manufacture these components as per client's customized requirements. We manufacture these parts using high-grade raw materials like steel, stainless steel, brass, copper, aluminium and many more as per the industrial standards and customer specifications.

BRASS LPG & OTHER GAS PARTS

We Manufacture and Export Brass Gas Fitting Parts : Male - Female Elbow, Flare Female Elbow, Single Barb Elbow, Flare Male Elbow, Gas Fitting Connectors, Barb T - 3 way, Compressor Female Elbow, Compressor Male Brand - T, Flare Equal Elbow, Gas Fittings Plug, Compressor Male elbow, Equal T, Compressor Union T, Force Barb - T, Brass Canteen Burner Valves, Main Line Shut off Valves, Brass Needle Control Valves, Brass F Valves, Straight Nozzle Valve, Brass Non Return Valve, Brass Lpg Cylinder Valve Fittings, Brass Gas Valve, Brass LPG Equipments.

BRASS CNC TURNED COMPONENTS

CNC components are widely used for general fabrication, milling, fastening, machining, and other procedures due to their high reliability and durability. They are available in a variety of dimensions and are completely abrasion-resistant. Our CNC Turned Components are precisely designed and engineered by our skilled professionals, who employ cutting-edge techniques and high-quality raw materials. The range of CNC Turned Components are manufactured as per industry standards and norms. We always provide quality-approved CNC & VMC components to our respected clients. We ensure that our entire range of CNC Turned Components is rigorously tested before final delivery to clients. They are always available in flexible sizes, dimensions, and shapes.

BRASS ELECTRICAL & ELECTRONIC PARTS

We are manufacturing all kinds of Brass Electrical Components, Brass Electrical Parts and Brass Electrical Fittings like Electrical Plug Pins, Sockets Pins, Brass Neutral Links, Brass Terminal Block, Brass Connectors, Brass Contacts and more. Brass Electrical Components are consumed in various applications like Toggle Switches, Modular Switches, Switchgears, Fuse Switches, Plug Pins & Sockets and many Electrical & Electronics Equipment or Parts. Brass Electrical Components for various industries including Power Generation, Electronic Industry, Solar Energy, Automotive Industry, Medical Industry, Electrical and Engineering Assembly.

BRASS CABLE GLANDS & EARTHING ACCESSORIES

Cable Glands are the most reliable and durable components for securing and protecting the cables and required elements in hazardous or harsh environments. Cable Glands are made of various metals including Brass, Stainless Steel, Plastic, Aluminium, Nickel Plated Brass and more. The function of Cable Glands is to protect the Conductors and Cables from mechanical damage and protect assembly against ingress of dust and moisture. Depending on Cable Glands and their applications, the different types of Cable Glands Accessories including Earth Tag, Lock Nut, Reducer, Adapters, PVC Shrouds, Serreted Washers and more are manufactured according to International Standards.

BUILDING HARDWARE FITTINGS

Our extensive experience as manufacturers of building hardware fittings like door hardware fittings, window hardware fittings, wrought iron hardware and many more coupled with our export capabilities that have been build over the years, we have established ourselves as a major player in the international market. Our company observes high quality production techniques along with a keen aesthetic sense of design, which ensures complete customer satisfaction.

BRASS SHEET METAL PARTS

Sheet Metal / Stamping Parts are used in varieties of applications like riveting, Fitting, Supports, Locking, Fastening & for various uses in electromechanical & Automobile Industries. It comprises a lot of types like Washers, Lugs, Tags, Gaskets, Links, Banana Plugs, Terminals, Tapping Clips, Hinges etc. Apart from Plain Washers, all other varieties are exclusively developed as per custom designs & demands. Sheet Metal Components are generally made from Brass, Copper & Steel which are the universally used in most of the applications. Flat Washer, Star Washer, Teeth Washer, Spring Washer & Split Washers can be made available as per specific requirement.
